

A modern, minimalist interior space featuring a curved glass elevator on the right. The room has large windows on the left, offering a view of a cityscape. A small wooden side table with a lamp and a vase of flowers is visible in the background. The floor is made of light-colored wood. The overall atmosphere is clean and sophisticated.

ELEVATOREX GmbH

ELEVATOREX Home Lift Brochure

Premium residential lift planning, installation, modernization, and maintenance for Switzerland, Austria, Germany, France, and the Netherlands.

Why buyers choose ELEVATOREX

- 1 Compact self-supporting concepts for many retrofit homes
- 2 Panoramic glass design that keeps interiors bright
- 3 Swiss project coordination from consultation to aftercare
- 4 Clear planning around space, access, power, finishes, and maintenance

Project Path

1. Consultation and site measurements
2. Model, finish, and travel-height selection
3. Technical planning and installation scheduling
4. Professional installation, handover, and maintenance

Start with a consultation

Send drawings, photos, or a short description of the property. We will help identify the right lift concept and the next practical step.
